**TRANSMITTAL OF PRIORITY DOCUMENT
AND
SUBSTITUTE DECLARATION**

Sir:

The above-identified application was filed on December 6, 2000 along with a Declaration executed by the inventor. Counsel recently received a certified copy of the priority document for this case. The priority document was compared to the original Declaration, and counsel noted that a typographical error existed in the original Declaration executed by the inventor. In particular, the reference in the Declaration to the priority document included an extra digit. Accordingly, counsel obtained and is submitting a substitute Declaration along with the priority document. The Examiner will note that the substitute Declaration includes a claim for convention priority rights with proper reference to the Japanese application upon which priority is claimed. This substitute Declaration also refers to the U.S. application by its application number and filing date.
